About SchoolJam

SchoolJam is an established music initiative promoting popular and rock music in schools throughout Germany. Initiated and developed by MusikMedia Germany, SchoolJam has provided hundreds of music-loving young adults the opportunity to perform and network with their peers, increasing their love for playing music and encouraging them to become active musicians rather than remaining passive music listeners and consumers over the last several years. To learn more about the original SchoolJam program, please visit www.schooljam.de.
